DETAILED ACTION

1. This office action is in response to amendment filed on Sept. 12, 2005.
2. Claims 1, 17, 23, and 27 have been amended.

Response to Arguments

3. Applicant's arguments with respect to claims 1-28 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
6. Claim 11 recites the limitation "the first protocol" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2688

8. Claims 1-3, 5, 7, 9, 15-21, 23-25, 27-28 are rejected under 35 U.S.C. 102(e) as being anticipated by Rinne et al. (6,574,473).

Regarding claims 1-3, 5, 7, 9, 15-21, 23-25, 27-28, Rinne discloses a method and system for controlling radio communications network, comprising defining a protocol initialization unit containing predetermined information of a first termination point of the radio interface protocol by radio interface protocol (see abstract, col.3, line 52-col.4, line 48, fig.7 and its description); transferring the protocol initialization unit from the first terminal point to a second terminal point of the radio interface protocol by means of a second protocol (see col.6, lines 15-21, fig.7 and its description); and initializing the second termination point of the radio interface protocol based on the protocol initialization unit (see abstract, col.7, line 56-col.9, line 19, fig.7 and its description).

Allowable Subject Matter

9. Claims 4, 6, 8, 10, 11-14, 22, and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2688

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
